Brush-Spray-Camera-System

The new Brush-Spray-Camera-system.

This is an unique system for duct cleaning and video inspection at the same time.

Perfect when spraying and brushing can be done at the same time.

Especially when small and precise spray of liquid is added.

This to avoid leakage from the ducts.. The camera inspection monitors the cleaning and spray in real time for optimal result.

Technical data Camera 23:

Diameter: 23 mm

Length: 55 mm

Type: 1/3" HD CMOS Image Sensor

Resolution: 800 TV Lines / 976(H)x496(V)
